Professional Summary

Final-year Computer Engineering student with hands-on expertise in Python, SQL, Power BI, predictive modeling, and business analysis. Proven track record in conducting EDA, optimizing customer retention models, and designing interactive dashboards to transform complex datasets into actionable business strategies.

Technical Skills

Languages & Querying: Python, SQL, C, C++, JavaScript

Data Analytics & ML: Exploratory Data Analysis (EDA), Hypothesis Testing, A/B Testing, Feature Engineering, scikit-learn, XGBoost, pandas, NumPy

Data Visualization: Power BI, Matplotlib, Seaborn, Plotly

Developer Tools & Platforms: Jupyter Notebook, Google Colab, Kaggle, Git, GitHub, Streamlit, Supabase, Hugging Face

Key Projects

Customer Churn Prediction | [GitHub](#) | [Live Demo](#) *Python, pandas, scikit-learn, XGBoost, Streamlit, SQL*

- Engineered an end-to-end churn prediction pipeline on 7,000+ telecom records, achieving **79.84% accuracy** and an **0.84 ROC-AUC**.
- Identified primary churn drivers using feature importance analysis to support customer retention strategies.
- Built and deployed an interactive **Streamlit web application** enabling real-time risk assessment for business users.

E-commerce Sales Analysis | [GitHub](#) *Python, pandas, SQL, Power BI*

- Analyzed 9,900+ retail order records using SQL and Pandas to evaluate regional performance and discount structures.
- Uncovered profit-draining categories responsible for over **\$100K in losses**, providing data-driven pricing recommendations.
- Designed a multi-page interactive **Power BI dashboard** tracking KPI metrics, sales trends, and customer segments.

KrishiMitra+ | [GitHub](#) | [Live Demo](#) *Python, TensorFlow, React, Supabase, Hugging Face*

- Developed a deep learning crop disease classification model with **98% validation accuracy** using TensorFlow.
- Deployed model endpoints on **Hugging Face Spaces** and integrated them seamlessly into a full-stack React web application.
- Architected a digital labor and farmer marketplace feature to solve local agricultural supply chain challenges.

Education

B.Tech in Computer Engineering
Parul University, Vadodara, Gujarat

2023 – 2027
CGPA: 7.90 / 10.0

Certifications

- | | |
|--|-----------------|
| • GenAI Powered Data Analytics Job Simulation – Tata (via Forage) | <i>May 2026</i> |
| • Data Analytics Job Simulation – Deloitte (via Forage) | <i>May 2026</i> |
| • Data Analytics Essentials – Cisco | <i>Sep 2026</i> |
| • AI Fundamentals – IBM SkillsBuild | <i>Aug 2025</i> |
| • Introduction to Data Science – Cisco | <i>Apr 2025</i> |

Achievements

- LeetCode:** Solved 100+ problems focused on Data Structures, Algorithms, and SQL optimization.
- Dewang Mehta Foundation Trust:** Recipient of the Certificate of Excellence (August 2024).
- Kaggle:** Active contributor publishing open-source data analytics notebooks and structured datasets.
